

# ABSTRACT OF THE DISCLOSURE

In a work standard creation system, a work related  
to each work standard is described using an operation  
phrase representing an operation of the work, an object  
phrase representing a target of the operation, and a  
comment phrase representing auxiliary information  
related to the operation and/or object and input, and  
the three phrase data input for each work standard are  
stored in a memory together with identifiers.
